moisturizes and softens the lips

Lipstick and lipbalm in one.
Wearing lipstick never felt so good.

Colour & care **LOOKX Lipstick**

Recommended use

Dab it onto your lips for a light, natural finish. For full color and shine, apply in a thicker layer. Press your lips together a few times to make sure the colour-particles pop. For extra-long & strong stay, use a LOOKX Velvet lipliner as a primer, and colour in your entire lips under the lipstick (or just line your lip-contours). Use a lip brush for extra precise application.
